

calenhad::legend::Legend
Entry::operator==

calenhad::legend::Legend
Entry::setColor

calenhad::legend::Legend
Entry::color

```
graph LR; A["calenhad::legend::Legend<br/>Entry::operator=="] --> C["calenhad::legend::Legend<br/>Entry::color"]; B["calenhad::legend::Legend<br/>Entry::setColor"] --> C;
```

The diagram illustrates a relationship between three code elements. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'calenhad::legend::Legend' followed by 'Entry::operator=='. The bottom box contains 'calenhad::legend::Legend' followed by 'Entry::setColor'. On the right, there is a gray rectangular box with a black border containing 'calenhad::legend::Legend' followed by 'Entry::color'. Two blue arrows point from the right side of the top-left box to the left side of the gray box, and from the right side of the bottom-left box to the left side of the gray box.
