

/home/ferret/CLionProjects  
/calenhad/src/mapping/projection  
/OrthographicProjection.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/mapping/projection  
/OrthographicProjection.h"] --> B["/home/ferret/CLionProjects  
/calenhad/src/mapping/projection  
/OrthographicProjection.cpp"]; A --> C["/home/ferret/CLionProjects  
/calenhad/src/mapping/projection  
/ProjectionService.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/ferret/CLionProjects/calenhad/src/mapping/projection/OrthographicProjection.h. Below it are two white boxes representing source files. The left box is /home/ferret/CLionProjects/calenhad/src/mapping/projection/OrthographicProjection.cpp, and the right box is /home/ferret/CLionProjects/calenhad/src/mapping/projection/ProjectionService.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
