

calenhad::nodeedit  
::NodeBlock::addPort

calenhad::nodeedit  
::Port::removeConnection

calenhad::nodeedit  
::Port::disconnected

```
graph LR; A["calenhad::nodeedit  
::NodeBlock::addPort"] --> C["calenhad::nodeedit  
::Port::disconnected"]; B["calenhad::nodeedit  
::Port::removeConnection"] --> C;
```

The diagram illustrates a flow or dependency. On the left, there are two white rectangular boxes. The top box contains the text 'calenhad::nodeedit' followed by '::NodeBlock::addPort' on the next line. The bottom box contains 'calenhad::nodeedit' followed by '::Port::removeConnection' on the next line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top-left corner of a third box on the right. The arrow from the bottom box points to the top-left corner of the same third box. This third box is gray and contains the text 'calenhad::nodeedit' followed by '::Port::disconnected' on the next line.
