/AltitudeMapFitter.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/controls/altitudemap  
/AltitudeMapFitter.cpp"] --> C["/home/ferret/CLionProjects  
/calenhad/src/controls/altitudemap  
/AltitudeMapFitter.h"]; B["/home/ferret/CLionProjects  
/calenhad/src/controls/altitudemap  
/AltitudeMapPlot.cpp"] --> C;
```

The diagram illustrates a dependency structure where two source files, `AltitudeMapFitter.cpp` and `AltitudeMapPlot.cpp`, both depend on the header file `AltitudeMapFitter.h`. The header file is located at the top in a grey box, while the source files are at the bottom in white boxes. Blue arrows point from each source file box to the header file box.
