

/home/ferret/CLionProjects
/calenhad/src/controls/ModuleTree.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/controls/ModuleTree.h"] --> B["/home/ferret/CLionProjects  
/calenhad/src/controls/ModuleTree.cpp"]; A --> C["/home/ferret/CLionProjects  
/calenhad/src/nodeedit/Calenhad  
Controller.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: /home/ferret/CLionProjects/calenhad/src/controls/ModuleTree.h. Below it are two white boxes representing source files. The left box is /home/ferret/CLionProjects/calenhad/src/controls/ModuleTree.cpp, and the right box is /home/ferret/CLionProjects/calenhad/src/nodeedit/CalenhadController.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.

/home/ferret/CLionProjects
/calenhad/src/controls/ModuleTree.cpp
