

/home/ferret/CLionProjects  
/calenhad/src/controls/QlconPalette.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/controls/QlconPalette.h"] --> B["/home/ferret/CLionProjects  
/calenhad/src/controls/QlconPalette.cpp"]; A --> C["/home/ferret/CLionProjects  
/calenhad/src/nodeedit/Calenhad.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a grey rectangular box containing the path and filename of a header file: `/home/ferret/CLionProjects/calenhad/src/controls/QlconPalette.h`. Below this box are two white rectangular boxes. The box on the left contains the path and filename of a source file: `/home/ferret/CLionProjects/calenhad/src/controls/QlconPalette.cpp`. The box on the right contains the path and filename of another source file: `/home/ferret/CLionProjects/calenhad/src/nodeedit/Calenhad.cpp`. Two blue arrows point from the bottom of the left and right boxes towards the bottom of the top box, indicating that both source files include or depend on the header file.

/home/ferret/CLionProjects  
/calenhad/src/controls/QlconPalette.cpp

/home/ferret/CLionProjects  
/calenhad/src/nodeedit/Calenhad.cpp
