

/home/ferret/CLionProjects  
/calenhad/src/legend/LegendChooser.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/legend/LegendChooser.h"] --> B["/home/ferret/CLionProjects  
/calenhad/src/legend/LegendChooser.cpp"]; A --> C["/home/ferret/CLionProjects  
/calenhad/src/legend/LegendManager.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/ferret/CLionProjects/calenhad/src/legend/LegendChooser.h. Below it are two white boxes representing source files: /home/ferret/CLionProjects/calenhad/src/legend/LegendChooser.cpp on the left and /home/ferret/CLionProjects/calenhad/src/legend/LegendManager.cpp on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include this header.

/home/ferret/CLionProjects  
/calenhad/src/legend/LegendChooser.cpp

/home/ferret/CLionProjects  
/calenhad/src/legend/LegendManager.cpp
