

calenhad::legend::Legend
::inflate

calenhad::legend::Legend
Widget::updateLegend

calenhad::legend::Legend
::setName

```
graph LR; A["calenhad::legend::Legend::inflate"] --> C["calenhad::legend::Legend::setName"]; B["calenhad::legend::LegendWidget::updateLegend"] --> C;
```

The diagram illustrates a function call relationship. Two source functions, 'calenhad::legend::Legend::inflate' and 'calenhad::legend::LegendWidget::updateLegend', are shown on the left. Arrows from both point to a target function, 'calenhad::legend::Legend::setName', on the right. The target function box is shaded gray, while the source boxes are white.
