

calenhad::nodeedit
::Calenhad::addView

```
graph LR; A["calenhad::nodeedit  
::Calenhad::addView"] --> B["calenhad::CalenhadServices  
::preferences"]
```

A diagram showing a call from a function in the `calenhad::nodeedit` namespace to a function in the `calenhad::CalenhadServices` namespace. The left box, which is shaded gray, contains the text `calenhad::nodeedit` on the first line and `::Calenhad::addView` on the second line. A blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text `calenhad::CalenhadServices` on the first line and `::preferences` on the second line.

calenhad::CalenhadServices
::preferences
