

calenhad::controls  
::TextEdit::keyPressEvent

```
graph LR; A["calenhad::controls  
::TextEdit::keyPressEvent"] --> B["calenhad::controls  
::TextEdit::textUnderCursor"]
```

A diagram showing a call from the `keyPressEvent` method to the `textUnderCursor` property. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.
