

calenhad::notification
::QNotification::QNotification

calenhad::notification
::QNotification::showEvent

calenhad::notification
::QNotification::complete

```
graph LR; A["calenhad::notification  
::QNotification::QNotification"] --> C["calenhad::notification  
::QNotification::complete"]; B["calenhad::notification  
::QNotification::showEvent"] --> C;
```

The diagram illustrates a flow or dependency. On the left, there are two white rectangular boxes. The top box contains the text 'calenhad::notification' followed by '::QNotification::QNotification' on the next line. The bottom box contains 'calenhad::notification' followed by '::QNotification::showEvent' on the next line. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top-left corner of a third box on the right. The arrow from the bottom box points to the top-left corner of the same third box. This third box is gray and contains the text 'calenhad::notification' followed by '::QNotification::complete' on the next line.
