

/home/ferret/CLionProjects
/calenhad/src/actions/ContextAction.h

```
graph BT; A["/home/ferret/CLionProjects  
/calenhad/src/nodeedit/Calenhad  
Controller.cpp"] --> B["/home/ferret/CLionProjects  
/calenhad/src/actions/ContextAction.h"]; C["/home/ferret/CLionProjects  
/calenhad/src/pipeline/Calenhad  
Model.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/ferret/CLionProjects/calenhad/src/actions/ContextAction.h. Below it are two white boxes representing source files. The left box is /home/ferret/CLionProjects/calenhad/src/nodeedit/CalenhadController.cpp, and the right box is /home/ferret/CLionProjects/calenhad/src/pipeline/CalenhadModel.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

/home/ferret/CLionProjects
