

calenhad::nodeedit  
::CalenhadView::setSnapToGrid

```
graph LR; A["calenhad::nodeedit  
::CalenhadView::setSnapToGrid"] --> B["calenhad::CalenhadServices  
::preferences"]
```

A diagram showing a call from a method in CalenhadView to a method in CalenhadServices. The left box is shaded gray and contains the text 'calenhad::nodeedit' and '::CalenhadView::setSnapToGrid'. A blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text 'calenhad::CalenhadServices' and '::preferences'.

calenhad::CalenhadServices  
::preferences
